Memo

To: Members of Dublin City Council

From: Marsha I. Grigsby, City Manager 

Date: March 20, 2014

Initiated By: Sara Ott, Sr. Project Manager

Re: Ordinance 17-14 - Authorizing the City Manager to Execute Necessary Conveyance Documents to Acquire 0.054 Acres, More or Less, Temporary Easement from Parcel Number 270-000401 and 0.040 Acres, More or Less, Temporary Easement from Parcel Number 270-000399 from Thomas A. McDowell and Allen E. McDowell, Trustee

Background

The City of Dublin ("City") is preparing to construct a shared use path on the western side of Dublin Road between Rings Road and Waterford Drive (the "Project"). The City must obtain property interests from various landowners located within the City in order to construct this project. The City presented offers based upon a calculated value to each of these landowners.

The City must obtain property interests for the construction of the Project from Thomas A. McDowell and Allen E. McDowell (the "Grantor"). After engaging in amicable negotiations, the City has come to an agreement with the Grantor to acquire these necessary property interests pursuant to the terms outlined in this memorandum.

Acquisition

The City will be acquiring from the Grantor only those property interests necessary for the construction of the Project as depicted in the legal descriptions and maps attached to this memorandum. The City will be acquiring these property interests for their estimated value. The acquisition is detailed below:

Property Interest Acquiring	Description	Estimated Value
Temporary Construction and Grading Easement	0.054 Acres	\$647
Temporary Construction and Grading Easement	0.040 Acres	\$479
Total		\$ 1,126

Estimation Calculations

The process used to estimate the value of the temporary easement area is very similar to that used in the appraisals commissioned by the City for permanent easements.

A square foot land value is established for the lot based upon comparable properties identified in appraisals commissioned for permanent easements in the same project.

The square footage land value is then multiplied by the square footage of area disturbed by the project. This value is multiplied by 10%, in recognition of the temporary nature of the easement's purpose. Finally, if any planting beds or trees are removed, a value is calculated for these elements and added to the land value.

Recommendation

Ordinance 17-14 would authorize the City Manager to execute all necessary conveyance documentation to formally acquire the necessary property interests described above.

Staff recommends approval of Ordinance 17-14 at the second reading/public hearing on April 14 as obtaining the property interests is necessary for the furtherance of this project.
